Caligula kitchingi ^[2]

Caligula,

a [WinBoard](#) compliant chess engine by [Pedro Castro](#), initially based on [Tom's Simple Chess Program](#) by [Tom Kerrigan](#) with its [10x12 mailbox](#) board representation. Caligula is not a substitute for [DanaSah](#), Pedro Castro's first engine, but has a more aggressive [search](#), while its [evaluation](#) seems to be a little worse ^[1].
