Voyager trajectories ^[3]

Voyager, the first [Crafty clone](#) by [Gabriele Müller](#). Voyager appeared in 1998 and played on [Internet Chess Club](#) (ICC), [Free Internet Chess Server](#) (FICS), and various private tournaments ^[1]. In February 1999, [Robert Hyatt](#) published the findings of his investigation, which showed Voyager was a clone of Crafty. Strings were translated to German, an own Copyright string was given, but otherwise it contained more or less the complete Crafty framework with various tweaks in [search](#), like [Null Move Pruning](#) with [R = 3](#) ^[2] and [evaluation](#).
