World Microcomputer Chess Championship, **WMCCC**, organized by the [ICCA](#). The World Microcomputer Chess Championship derived in 1980 from the [PCW Microcomputer Chess Championship](#). On the triennial meeting of the [ICGA](#) during the [WCCC 2002](#), the members agreed to discontinue the WMCCC on behalf of a yearly [World Computer Chess Championship](#) cycle, since the micro distinction seemed no longer contemporary, considering multiprocessors.

Editions

Edition	Event		Origin	ICGA	Participants	Champion
